Indradeo Rana

Entry Level Java Developer

6205672514 | indradeorana2017@gmail.com | LinkedIn | Portfolio | Bangalore, India

OBJECTIVE

Java Full Stack Developer | MCA Graduate (8.87 CGPA) | Bangalore

Skilled in Spring Boot, React.js, and REST API development. Built production-ready applications with payment integration, real-time authentication, and cloud storage. Seeking a backend/full-stack role where I can contribute from Day 1.

EXPERIENCE

Iron Gym – "Gym Management System ": ***Full Stack Web Development Intern | Unified Mentor*** June 2025 – Sep 2025

Tech Stack: HTML, CSS, JavaScript, Firebase (Auth + Firestore)

- Developed a role-based Gym Management System with 2 user roles (Admin/Member), reducing manual billing effort through automated renewal tracking and diet-plan management.
- Integrated Firebase Authentication and Firestore real-time database, enabling secure login and live data sync across all modules.

EDUCATION

Dayananda Sagar College of Engineering, Bangalore **2023–2025**
Master of Computer Application(MCA) *CGPA:8.87*

Doranda College, Ranchi **2019–2022**
Bachelor of Information Technology(B. Sc IT) *CGPA:8.51*

TECHNICAL SKILLS

Programming Languages:	Java, C++, Python
Frontend:	HTML5, CSS3, Tailwind, JavaScript (ES6+), React.js
Backend & Frameworks:	Spring Boot, JSP, Servlet, Node.js , JUnit & Mockito
Database & Tools:	MySQL, MongoDB, Firebase Firestore, JDBC, Postman
Version Control:	Git & GitHub
Concepts:	Object-Oriented Programming (OOP), RESTful APIs, System Design Fundamentals

PROJECTS

CloudShare – Cloud File Sharing & Subscription Platform: Link Jan 2026 – Present

- Architected a full-stack cloud platform with tiered subscription plans, integrating Razorpay payment gateway for real-time transaction processing.
- Secured all backend APIs using JWT tokens with Clerk-based OAuth authentication, protecting user data and file access.
- Designed RESTful APIs for 5+ modules: user profiles, credits, file upload/download, and transaction history using Spring Boot + MongoDB.

RDGo - Ride Booking Application: GitHub Nov 2024 – Jan 2025

- Built an end-to-end ride booking platform using Google Maps API, covering route calculation, pickup/drop selection, and driver matching.
- Implemented OTP-based login using Twilio API, adding phone verification security to the authentication flow.
- Engineered full-stack communication between React.js frontend and Node.js/MongoDB backend via RESTful APIs.

CERTIFICATES & ACHIEVEMENTS

- Completed **Full-Stack Web Development Internship** under Unified Mentor.
- 5-Day Hands-on Generative AI workshop (RAG) from **Innomatics Research Labs**
- Solved 150+ DSA problems in Java across LeetCode, GeeksforGeeks, and Coding Ninjas — focusing on Arrays, String, and HashMap patterns."
